Survey form to assess the level of attainment of student outcomes – Graduating Students

The program of BE in Electronics and Communication Engineering has been designed with certain student outcomes (the knowledge, skills and attitudes that students develop during the course of study). The students of graduating class are requested to answer the questionnaire given in this form to assess how well they judge they have attained the student outcomes set for the program. Please answer the questionnaire on a scale of 1 to 5 where 1 indicates little achievement or skill, and 5 indicates great deal of achievement.

S. No.	Survey questionnaire	Level of attainment (answer on a scale of 1 to 5)				
		1	2	3	4	5
1	How comfortable are you to analyze and solve problems of Mathematics, Basic and Applied Sciences?					✓
2	Has the program enabled you to understand the ethical and professional responsibility?					✓
3	Has the program prepared you with a good understanding of engineering, including what is required for the practice of the profession in an industrial setting?				✓	
4	Has the program enabled you to design and conduct experiments, as well as to analyze and interpret data?				✓	
5	Whether the program provides an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice?				✓	
6	Do you agree that the broad education is necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context?				✓	
7	Do you get the knowledge of contemporary issues?				✓	
8	Whether the program provides the ability to function in multidisciplinary teams?					✓
9	Has the program enabled you to communicate effectively?					✓
10	Have you developed an understanding of professional and ethical responsibility?					✓

What do you plan to do after graduation at TU.?

(a) Employment (give details like employer name): _I plan to work at either Think & Learn Pvt. Limited or continue working here at Axtria Analytics,_

(b) Higher education (give the title of degree): _P.G._

(c) Entrepreneur (specify): _____

Student Name: _Kartik Bania_   Regd. No.: _101306080_

Survey form to assess the level of attainment of student outcomes – Graduating Students

The program of BE in Electronics and Communication Engineering has been designed with certain student outcomes (the knowledge, skills and attitudes that students develop during the course of study). The students of graduating class are requested to answer the questionnaire given in this form to assess how well they judge they have attained the student outcomes set for the program. Please answer the questionnaire on a scale of 1 to 5 where 1 indicates little achievement or skill, and 5 indicates great deal of achievement.

S. No.	Survey questionnaire	Level of attainment (answer on a scale of 1 to 5)				
		1	2	3	4	5
1	How comfortable are you to analyze and solve problems of Mathematics, Basic and Applied Sciences?			✓		
2	Has the program enabled you to understand the ethical and professional responsibility?				✓	
3	Has the program prepared you with a good understanding of engineering, including what is required for the practice of the profession in an industrial setting?					✓
4	Has the program enabled you to design and conduct experiments, as well as to analyze and interpret data?					✓
5	Whether the program provides an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice?				✓	
6	Do you agree that the broad education is necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context?				✓	
7	Do you get the knowledge of contemporary issues?			✓		
8	Whether the program provides the ability to function in multidisciplinary teams?				✓	
9	Has the program enabled you to communicate effectively?				✓	
10	Have you developed an understanding of professional and ethical responsibility?				✓	

What do you plan to do after graduation at TU.?

Survey form to assess the level of attainment of student outcomes – Graduating Students

The program of BE in Electronics and Communication Engineering has been designed with certain student outcomes (the knowledge, skills and attitudes that students develop during the course of study). The students of graduating class are requested to answer the questionnaire given in this form to assess how well they judge they have attained the student outcomes set for the program. Please answer the questionnaire on a scale of 1 to 5 where 1 indicates little achievement or skill, and 5 indicates great deal of achievement.

S. No.	Survey questionnaire	Level of attainment (answer on a scale of 1 to 5)				
		1	2	3	4	5
1	How comfortable are you to analyze and solve problems of Mathematics, Basic and Applied Sciences?				✓	
2	Has the program enabled you to understand the ethical and professional responsibility?					✓
3	Has the program prepared you with a good understanding of engineering, including what is required for the practice of the profession in an industrial setting?					✓
4	Has the program enabled you to design and conduct experiments, as well as to analyze and interpret data?					✓
5	Whether the program provides an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice?					✓
6	Do you agree that the broad education is necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context?					✓
7	Do you get the knowledge of contemporary issues?				✓	
8	Whether the program provides the ability to function in multidisciplinary teams?				✓
