

THAPAR INSTITUTE OF ENGINEERING & TECHNOLOGY, PATIALA

An Orientation Program For The New Entrants

The Orientation program is a three-week program which aims at welcoming the new entrants and introducing them to the institute, where they will spend a very important period of their lives.

The program has been split up into three parts:

PROEM WEEK 1 : Cultural (16th July'2018 to 21st July'2018)

PROEM WEEK 2 : Technical (23rd July'2018 to 27th July'2018)

FROSH WEEK (20th August'2018 to 24th August'2018)

The main objective of this program is:

- To formulate global citizens out of raw individuals, who are aware of and are sensitized towards their surroundings.
- To foster the spirit of teamwork through group activities.
- To channelize and focus their energies on the activities they are passionate about.
- To provide them with a forum to develop and showcase their creativity in the field of music, dance, theatre, art, media, and much more.
- To engage them in sports and physical activities, in order to make them understand the real meaning behind the famous saying "Health is Wealth".
- To give them a brief insight into the practical application of the streams that they have opted for, so that they have a head start on the academic front.

In order to make it a program that helps students in acclimatizing to the change in their environment and achieving the objectives listed above, the following activities are planned:

- Lectures by the faculty members, that will help the students understand the working of the institute and guide them towards making the most out of their college life.
- Guest lectures by experts in the fields of communication skills, the art of living, meditation and learning through community service.
- Workshops on painting, sketching, creative writing and performance-based creative skills like music, dance, and theatre.
- Athletics, outdoor sports, yoga and meditation classes.
- A brief introduction to their chosen branches and practical application of the same, through various Technical Workshops.
- Appreciation of art and music through cultural evenings and movie showcase.

Important Note for the Students: -

- A regular attendance will be maintained of every individual during the course of the program, which will later be considered as a part of the overall attendance of the semester and will be added to the 75% attendance criteria.
- The program has been specially devised for the first year BE/B. Tech students so as to make them appreciate the need for knowledge, fitness, creativity, and culture in their quest to become a successful engineer and a good human being.
- Each student has to participate in at least two of the six creative workshops being conducted during the week. The necessary equipment shall hence be brought by them according to their area of interest.
- Physical fitness through physical exercises, sports/games, and yoga sessions are being highly emphasized upon and thus, the students should bring along, their sports equipment and proper sports uniform, for the game they find an interest in (rackets, sports shoes, tracksuit, etc.)
