

Tools for Web Accessibility People with Differently-abled (Divyangjan)

TIET is committed to make our website accessible to all users, trying to include those with Differently-abled (Divyangjan). TIET try to aim or exceed the standards set by the Web Content Accessibility Guidelines (WCAG) 2.1 at the AA level, with a goal to improve usability for everyone. The Following tools are recommended for web accessibility and other application like Email, Document, etc.

Accessibility Tools

1. NVDA (NonVisual Desktop Access)

Description: For visually impaired users to access web content. Ensures compatibility with screen readers, supporting users who rely on auditory feedback.

URL: <https://www.nvaccess.org/>

- 2. JAWS, Job Access with Speech:** JAWS is a popular screen reader, developed for computer users whose vision loss prevents them from seeing screen content or navigating with a mouse. JAWS provides speech output for the most popular computer applications on your PC. You will be able to navigate the Internet, write a document, read an email and create presentations from your office, remote desktop, or from home.
