Activity: World Environment Day Celebration

Date: 05 June 2023

On 5th June 2023, Thapar Institute of Engineering and Technology celebrated World Environment Day with a series of events aimed at promoting environmental awareness and sustainable practices. The day began with a tree-planting ceremony, attended by faculty members, students, and staff. A workshops were conducted, featuring distinguished speakers who addressed pressing environmental issues, such as climate change, waste management, and renewable energy.

A key component of the day's activities was an interactive session on "Sustainable Lifestyles." Students shared innovative ideas for reducing plastic usage and improving energy efficiency in daily life. The campus also hosted an exhibition showcasing projects by students and researchers focused on eco-friendly technologies, including waste-to-energy solutions and water purification systems.

This World Environment Day celebration underscored Thapar Institute's commitment to environmental stewardship and community involvement, inspiring all participants to adopt more sustainable practices for a greener future.

Workshop attended by participants

Briefing by student on the occasion

Session conducted by Dr. Ajay Batis, Deputy Director, TIET
